MADRID & BARCELONA

MARCH 11 – 18, 2007

España! The word alone conjures up the excitement, beauty, history and art of this fabulous destination.

For you, it starts in Madrid, the capital of Spain. A tapestry rich in culture, architecture and culinary delights. You will want to take in a Flamenco performance at a local club and a visit to El Rastro, a world-famous market where you might just walk away with an *original* painting. Chato (a small glass of red wine) and tapas (appetizers) round out a perfect day.

On to Barcelona! You will feel the presence of the world's most famous artists who were inspired here. Picasso, Miro, and Dali are all on display at local museums. But perhaps the most interesting art is that of architect Antoni Gaudi, whose highly unusual Sagrada Familia Church among other buildings has drawn worldwide attention. Make sure you take at least one stroll down La Rambla near the waterfront. Lined with street entertainers, cafes and artisans, it truly gives you the real flavor of Barcelona.

*Get ready for the
greatest trip in history.*
